It may be argued that we can get on with-

The defendant denied at that period having any connection with his wife and stated that the child was not his, and that his wife must have committed adultery before the signing of the dead. The wife on the other hand stated that on the 18th July, she had an interview with her husband, and that the result of that interflag will call alongside any vessel hoisting code view was the child in question. Perhaps you are not aware that all vessels have to send their logs to the learned Astronomer, which is hard enough considering the rush and hurry the whole time a vessel is in port now a days, but is much worse when we fail to find any result therefrom. There is a big enough staff connected with the white elephant (for it seems to me that so far as Hongkong is concerned the Observatory is nothing else); why is not one of them deputed to call on board each vessel and take the extracts required? "Thermometer" asks a lot of questions. I would ask one. Why is the Observatory continued at all if it does not I fulfil the purpose for which it was intended? have heard scores who say it does not but not one who says it does. It costs very large sum for a small place like Hong kong, for I understand there is no special levy on the ships for its upkeep, although was almost entirely for their benefit that was founded. The learned observer lately got an addition to his salary and an addition to his staff. The fact seems to be that the learned Doctor is more of an astronomer than meteorologist. I am told, with what truth cf course I know not that he does not make his appearance till about noon and as between that hat home and four o'clock, when the office closes, he has to go up again for tiffin there is not much time left. But one cannot expect a man to work night and day as wel and if the learned scientist is engaged till two in the morning observing the transit of Vertus or admiring some bright particular star he cannot be fit for meteorological work in the early part of the day. But the conjunction of Venus and Mars and matters of such high standing is not what we want observed; we want weather forecasts and correct daily Meleorological Reports made up also weekly and monthly, and scientific deductions therefrom. In fact we want what we had before from the Civil Hospital, the Harbour Master, and Messre. Falconer & Co., but on a thoroughly reliable basis. May I ask why this Observatory is not worked

HR EXPLAINS THE SITUATION IN SANZIBAR New York, 19th April.

Thomas Stevens, the World's special commissioner in Africa, sends the following under date of Zanzibar, February 24th :---

I have arrived at the spot on which is centred at the present time so much of the interest of the civilized world. On Sunday, February 17th, at 11 a.m., the steamer Baghdad dropped anchoramid the shipping in the Larbour of much-talked-of Zanzibar. Like all Oriental cities, the city looks levely from a distance. After deducting orking expenses and a 5 p r cent. commission the customs revenue, the bilance was to soue to the Sultan. After the first year the ermans were to keep 50 per cent. of any inease they might bring about in the revenues. is distinctly stated in article I that "the asition is to be responsible for all affairs and ministration of that part of his Highness' minions included in this concession, and that s Highness the Sultan shall not be liable for ly expenses connected with the same, nor for y war or diya (blood money), or for any claims ising therefrom, none of which his Highness all be called upon to pay."

Everything being arranged, all public buildgs, lands, etc., were handed over to the Gerans, who, on August 16th, formally commenced e administration of affairs. Hints as to what ight be expected had not been altogether wantg during the four months interval between the gning of the concession and the commencement the German edministration. Herr Volsen s chosen Director-in-Chief and the German pusulate began to play a-very active part. At Pangani and Bagamayo the natives obsted to the strangers removing their Sultan's gstaff and rebelled. In a few days the troubles d developed into an open insuree ion, and erman men-of-war were being pitted against Shai & H. Wharf bs of infuriated natives. At some stations Shanghai Water. e German officials were r scued by the Suln's tro pa sent over from Zangibar; at others ey were killed. The natives were mowed down th machine guns by the hundred. The Ger ans sent word home that it was an outbreak of pharmedan fanaticism against the whites a matter of fact, there is less fanaticism in

uzibar than-in any other part of the Mohamdan world. The flame of insurrection now spread from rt to port, and the Germans found themselves mbarding and shooting right and left, defendr lives and making reprisals. At Bagamoyo d other places the Sultan's flagstaff had been opped down as at Pangani, and the results had on less bloodless. The indignant and exasperatnatives fired on the German boats and in ces made the officials r hoist the Bultan's

retaff. In less than a fortnight after his brave speeches the inauguration banquets Herr Voksen ananced himself to Colonel Evan-Smith, the itish Consul, as "in despair." He and the rman Consul blustered about and said they uld hold the Sultan responsible for failing to nd over the coast to them as the contract call-

Upon repeated inquiries, covering a great variety of diments, my costomers have always answered, "I am better," or "I am perfectly well." What I have seldom or never seen before in the case of any medicine is that people tell each other of its virtues, and those who have been oured say to the suffering : "Go and get Mother Seigel's

that happen to come into my mind. Two old gentlemen, whose names they would | inst., at Four P.M. not like me to give you, had been martyrs to Indigestion and Dyspepsia formany years. They modation. had tried all kinds of medicine without relief. One of them was so had he could not bear a glass of ale. Both were advised to use the Syrup and both recovered, and were as hale and hearty as men in the prime of life. A remarkable case is that of a house painter

named Jeffries, who lived at Penshurst, in Kent. His business obliged him to expase himself a great deal to wind and weather, and he was seized with rheumatism, and his joints soon swelled up with dropsy, and were very stiff and painful. Nothing that the doctors could do seemed to reach the seat of the trouble. It so crippled him that he could do hardly any work and for the whole of the winter of 1878 and '7 he had to give up and take to his bed. He had been afflicted in this sorry way for three years, and was getting worn out and discouraged. Be sides, he had spent over £13 for what he called "dootor's stuff" without the least benefit. In the Spring he heard of what Mother Seigel's Curative Syrup has done for others and bought a 2s. 6d. bottle of me. In a few days he sent me | 3 HE P. & O. S. N. down to him myself. On getting to his house what was my astonishment and surprise to find him out in the garden weeding an onion bed. I could hardly believe my own eyes, and said :--"You ought not to be out here, man, it may be the death of you, after being laid up all winter with rhoumatism and dropsy. His reply was :- "There is no danger. The weather is fine, and Mother Seigel's Curative Syrup has done for me in a few days what the doctors could not do in three years. I think I

He kept on with the Syrup, and in three weeks he was at work again, and has had no return of the trouble for now nearly ten years. Any medicine that can do this should be known all over Yours faithfully. RUPERT GRAHAM. Of Graham & Son. Holloway House, Sumbary;
